

Thank you for becoming an Animal Protector

You will be by their side when they need you the most

You are now part of an incredible group of people who stand up to protect those without a voice. Your monthly commitment to animals means that every day you are stopping cruelty before it starts and giving animals the life they deserve. Your monthly gift means:

- ▶ A brighter future for animals. The most important changes for animals are long-term and ongoing.
- ▶ You are tackling the biggest issues affecting the most number of animals. Consistent funding and your powerful voice will move governments and corporations to better protect animals.
- ▶ You'll join a community of Animal Protectors who believe animals deserve to live free from suffering.

To keep up to date on campaign actions and successes you make possible, be sure to sign up to receive eNews - a monthly digital newsletter.

Side by side with animals, you will:

Improve the lives of millions of pigs and other animals suffering on factory farms

Unite governments, organizations and nations to ban the global wildlife trade to end the suffering of wild animals and protect people

Help end the exploitation of bears used in the bear bile industry and for entertainment

Help stop wild animals from being used and abused for tourism entertainment
